Overall Approach to Risk Assessment

At Fun Foundations Day Nursery we promote the safety of children, parents, staff and visitors by reviewing and reducing any risks.

Risk assessments

Risk assessments document the hazard/aspects of the environment that needs to be checked on a regular basis. These include who could be harmed, existing controls, the seriousness of the risk/injury, any further action needed to control the risk, who is responsible for what action, when/how often will the action be undertaken, and how this will be monitored and checked and by whom.

The nursery carries out written risk assessments regularly (at least annually). These are regularly reviewed and cover potential risks to children, staff and visitors at the nursery. When circumstances change in the nursery, e.g. a significant piece of equipment is introduced; we review our current risk assessment or conduct a new risk assessment dependent on the nature of this change.

All staff are trained in the risk assessment process to ensure understanding and compliance of how they manage risks.

All outings away from the nursery are individually risk assessed. For more details refer to the visits and outings policy.
